THE STRANGE SITUATION OF AFFAIRS IN HAWAII-POLITICS.

Hawaii for the Hawaiians—A New Party-It Threatens a Return to Semi-barbarism.

The Assembly is composed on a diplomatic mission pertaining to immigration thence. Three of the representatives, eleven nobles and all the Cabinet are foreigners. From the first day a strong antagonism against the Cabinet disclosed itself. An entire change was reasonable to the goose that lays the golden egg." An entire change was made in Assembly officers, and every opportunity was taken to strike at the Ministers, especially Mr. Armstrong, Attorney General and Minister of Interior, against whom and Mr. Carter, who held both offices during Mr. Armstrong's tour of the world with Kalakaua, the feeling is bitter. The COMING! COMING! political situation is a complicated one, there being no well-defined party lines, owing to the cosmopolitan and unassimilating nature of our population. One of our wealthiest and most influential citizens is a Chinaman, but we are as free from Hiber-**EQUESCURRICULUM** nian statesmen as we are from snakes. A division which readily suggests itself from the frequency with which the term mis-

sionary is applied to Congregational Church-goers and their friends, is that of missionary and anti-missionary, but of late years the missionaries have lost ground, till now they form little more than a clique, while the anti-missionaries are a body disin-tegrated by factions, entertaining race and national antipathies only equaled by their repugnance to missionaries. THE MISSIONARY PARTY Was a natural outgrowth of the evangelical labors of that class who over fifty years ago came here from New England. In those BEST TRAINED HORSES days the spiritual and temporal government of the people was substantially the same thing. Subsequently people of other nationalities, with different and sordid motives, arrived, and of course proved a thorn in the side of the missionaries by later. in the side of the missionaries by leading

As Americans equal in number the united forces of England, Germany and France, they might hold their own but for the loss of native supporters, as already intimated. Several reasons may be advanced for this loss, chief of which has been the greater diplomacy of Great Britain. Former Hawaiian Kings were invited there, and a profound impression made upon their adolescent intellects by dazzling splendors of court and castle; WILCOX&WHITE ORGANS great men-of-wars were ordered to call at Honolulu, and belch their thundering salu tations amid clouds of flying bunting; gen-tlemen of good breeding and fine presen 95 Sold on e installment plan. A happier selection than that of the present Minister, however, could hardly be made. He has done much to retrieve lost ground not only among the natives but Europeans also. The Consul is a new man, and labors under that disadvantage. Such men should be the best, and sent to stay. Although an overwhelming force of natives has been shown to lean toward England as against the United States, another and comparatively new factor is to be considered, which materially modifies the situ-

GENERAL NOTICES.

It is Generally Admitted that there Can not be anything more exquisitely delicate for perfuming the handkerchief than MURRAY & LAN-MAN'S FLORIDA WATER, but its great and distinctive property is its adaptability to the use of the bath. It is the only perfume that we know of especially and particularly suited to use in this way; the power it has of imparting to the waters of the bath great soothing, refreshing and invigorating effects is peculiar to itself. TEMPERATURE YESTERDAY IN NEW YORK AND CHICAGO. [Special by Telegraph—Courtesy of the RECORD-UNION.]

The season is at its height in nearly all kinds of goods, and the

advantages we offer in variety

and price have never stood out

more clearly than now.

The present great perfection attained in READY-MADE CLOTHING of the finer kinds was achieved at first only in the branch of Men's wear. From this tardiness of the manufacturers in paying equal care and attention to the making of Boys' and Youths' Clothing, came the idea, which still lingers with many people, that Boys' Clothing is still inferior in style and durability to that made for men. That this is not so (at least with the work of the best manufacturers), we believe an inspection of our stock will plainly show. Certainly nothing can be more tasty or better made and finished than the best of the suits seen here.

We mention TO-DAY from the general assortment of KILT SUITS, among which will be found some of the newest conceptions:

Boys' Dark Brown Kilts—comprising jacket, vest and kilt skirt; ages, 2½ to 5 years; \$3 50.

Suits, with silk sashes: \$6 75. Boys' Linen Kilt Suits, \$1 50.

And although the premiums had not been paid for

Mrs. Davis has the money; it was paid promptly and
with little expense to her, and it all came from a

BARLEY—Very little spot business has been transacted in a week. Brewing is entirely neglected. Feed is more or less in demand for September delivery, and transactions for such account have been somewhat numerous. Sales to-day on call embrace 50 tons at \$1.72 spot; 200 do No. 2; in four equal lots, for September and October, at the uniform price of \$1.15 \( \preceq \text{et} \) For May deliveries of No. 1 Chevalier, \$1.72\( \preceq \text{was asked against \$1.67\( \precep \) bid. Sales at the Grain Exchange were limited to a 50-ton of of No. 1 Feed at \$1.18\( \precep \) ctl in October.

OATS—There is no pressure to sell. Stocks are not heavy, and, being well concentrated, are well handled by operators. Buyers exhibit a disposition to speculate on future account, but the selling interest will not respond. Each day bids are made for deliveries in nearly every mouth for the last half of the year, but it is seldom that anybody names a selling figure. The call on the Produce Exchange is a monotonous affair. For a whole week the list has been called with daily regularity without a single transaction being recorded. Spot lots would likely range from \$2 to 82 124\( \precep \) ctl.
